Retired Educator and Founder

Barbara moved to Silver City from Minnesota with her husband in 2002 having recently retired from teaching elementary music in the Minnetonka Public Schools. She volunteered for 10 years at several Grant County El Grito Head Start Schools reading to the children and saw first-hand the need to get books into children's homes. When Barbara learned about the Imagination Library, a plan came together! She helped establish the Imagination Library of Grant County in 2010, and it has grown rapidly from 8 initial registrants to 1250 children who are currently getting a free, high-quality age-appropriate book each month in the mail. "We know that having books in the homes and having parents reading aloud to their children will foster a love of learning and family bonds will be created."

When Loren's term at AYH was complete, he and Barbara founded the Imagination Library of Grant County in order to provide books to the children of the area. The Dollywood Foundation viewed their success as one of the best in the state and asked them to lead the efforts to make this program available to ALL babies, infants and toddlers in the state. Their efforts continue.

Licensed Clinical Social Worker

Nancy has a Bachelor's degree in Psychology from Indiana University and a Master's degree in Social Work from New Mexico State University. She has worked in social service settings in New Mexico and Kentucky. Nancy and her husband Brian moved to Silver City in 2007, and their children loved getting Imagination Library books as babies. Nancy has a passion for children's books and grew up listening to Dolly Parton's music. When she read about Dolly Parton's Imagination Library, she jumped at the chance to work for the Grant County affiliate in 2015. Nancy stated in her application, "Although childhood literacy is different from social work, both place value on children's learning, social justice and well-being, and both can facilitate positive change. Almost nothing is more powerful than a good story, especially when it's associated with the love of a parent." Nancy considers story time the best part of each day and plans to read aloud to her kids as long as they let her.
